D. G. F. Macdonald's Book on British Columbia.

All who resided here early in '59, and from that time on to '60, remember a stout, thickset, pot-bellied Scotchman, a civil engineer, answering to the name of D. G. F. McDonald. He, with some others, projected a tram-way to Esquimalt early in '60. Previous to that he was engaged in surveying the town of New Westminster; but subsequently he became connected with the Boundary Surveying Commissioner, Col. Hawkins, and helped to run the line from the Cascades down towards the Gulf of Georgia. Afterwards he went to San Francisco, and there wrote a series of letters against this country, and particularly against Governor Douglas. McDonald was a disappointed man, he did not get a fat office, and so has vented his spleen. About the time that his old acquaintances here had forgotten him, he turns up as author—publisher—of a book on British Columbia. We have not seen the work; but a gentleman now in London, sends us a few extracts, which we append. The tenor of the book is, "keep away from British Columbia," as may be seen in the following extract:

The impressions left on the mind are of

Soil:—"Its (Vancouver), agricultural and grazing facilities are incomparably inferior to those of the United States, the Cape, New Zealand, Australia, and the Canadas. But British Columbia is a miserable country, neither adapted for cattle nor suited for ceresls." Mac evidently saw things through the spectacles of a disappointed man.

Geology:—"His Excellency the Governor has no faith in its utility; yet geology is one of the noblest of sciences, etc." Uninviting idea of British Columbia: "Prairies are few, swampy, and of small extent, and are overhang in summer by clouds of insects, whole masses of decaying vegetation feed the ex-

The trees, though summer, yet forlorn and lean,
O'ercome with moss and baneful misletoe.

But not so in British Columbia, where it would be vain to attempt to describe the hardships endured by the poor half clad, struggling people."

Where did the Women and Children Come from ?

"Poor creatures; even now the scenes of misery which I have witnessed in that de-

pendency rise before me—men, women and children famishing for want of a crust of bread, in a foreign land where charily has no existence and where the most exaggerated tales of wretchedness and crime, fall far short of what the newly arrived colonist falls and winesees. feels and witnesses." Although so Bad He Tries to Purchase. " I applied to the Chief Commissioners of Lands and Works, to purchase on the Gov-

ernment terms, for a few constituents, a thousand acres of land, situate on the banks of the Fraser."

Discourages Emigrants.

Biscourages Emigrants.

"Believe me, hopeful emigrant, when I warn you, that if you cast yourself a penniless wanderer upon the wild territory of British Columbia, even the very sky over your head will rack you with bitter winds and pitiless tempest."

The Indians in the present and future.

The Indians in the present and future.

"Nothing can be expected but a war of extermination sooner or later, in which it is to be feared that the cunning, the ferocity, and the local knowledge of the Indians may prove an overmatch for the superior knowledge of the white men, who number so few. The new arrival is waited for by the crafty, blood-thirsty, and implacable savage, who never throws away a chance, never exposes himself to the weapons of an enemy, nor misses an opportunity of slaughter and revenge."

"Accounts from Carrono so confirm the position I have ever minintained, that there is no material difference between the character of the gold deposits on the lower and middle Fraser and that of the placers in the northern section."

What a People in British Columbia. "The state of society is low to the extreme. * * Night and day bands of murderous-looking rufflans prowl about and commit the most atrocious robberies. No man thinks of moving from his tent without every barrel of his revolver charged and ready for use. At the darkest hour of night. ready for use. His Interest in New Westminster. "I naturally fell an interest in the place, in having had the honor of being associated with, ' &c.

Imagine his Bold Face.
"On one occasion those demons decided on murdering two of us. We could not sleep, but sat up displaying our revolvers and showing as bold a face as possible."

The Bishop and his Efforts. "An unmarried clergyman is not the in "An unmarried clergyman is not the individual likely to inspire confidence. He must either be a saint or a pharisee. If the Columbian Mission is to be kept up, the money must be sent from England. If any impression is to be made on these savages, it can only be done by following them to their native wilds—by living with them, the life of barbarians, and feeding on the flesh of wild animals, grubs, roots, and grasses, like themselves. When the molasses is stopped, the gathering of the children will stop too.

"The impressions left on the mind are of grandeur, gloomy vastness, awful solitude, rendered more dismal by the howl of beasts of prey." Again: "How drear and awful is these solitudes."

"And many a poor wandering mariner have its feaming waters engulphed to be never the solitudes and the lish "Catema," he recommends to Australia, Natal, or the Canadas. British Columbia teems with natural disadvantages to the honest and industrious man.

This precious book contains 524 pages The woods:—"But these are silent, or resound only with the harsh scream of birds, or the fearful cry of wild beasts of prey."

The coast:—"In that portion that lies north of the parallel there is no harbor with the exception of Burrard's Inlet."

That ought to suit the people of New Westminster.

Scarcely a steamer arrives at this port from San Francisco without giving occasion for any amount of fault finding with the way in which the transmission of mail matter is perhaps do until our knowledge of our posiregulated in this Colony. Nor do we think that such complaints are without foundation Notwithstanding the fact that letters are continually arriving in San Francisco overland, as well as by the Panama steamers, we have often to wait some three weeks before we can have them brought here, unless we manage to have them forwarded by express For instance the Golden Age, from Panama, arrived at San Francisco on October 26th the day before the sailing of the steame Pacific for this port, and brought about 127 packages of mail matter, containing the New York mail of October 1st, yet we have not received either papers or letters from the Eastern States by our last steamer. They still remain in the office at San Francisco, and will remain there till the sailing of our next mail steamer, or perhaps longer. When we consider what a number of interests are involved in the safe and rapid transmission of our letters, and what losses and misfortunes often result from them being destroyed or delayed, it becomes a question how such a state of things is allowed to exist. The Government have undertaken the monopoly of mail carrying; they have taken it out of the hands of individuals as well for the safety of public property as from the idea that it could be managed much better for the public convenience than by private enterprise. Such being the case, are they not bound to make every exertion to leave no room for complaint? If they require people to pay them a certain rate of postage or every letter and newspaper they carry ; if in addition to this, every year the Legislature are asked for a grant of several hundred pounds to sustain the postal department. should there not be something to show for it? What is the Government for if not to look after our interests? It is not constituted merely to give a number of individuals good salaries for doing nothing. No. Our postal department should be equal to that of any other civilized country, as far as our means and good management will contribute to make it so. It the fault of the non-transmission of our mails from the east be in the American department, surely it could be remedied if a fair representation of the facts were made to the proper quarter. As matters are now, the consequences are that every thing must be sent through the express to ensure its arrival in anything like a proper time. This fact has given rise to unfounded suspicions of Express Companies exerting their influence to prevent the transmission of mail matter as it ought to be. Wherever the blame may rest, it is the duty of the Executive to set the matter right. There are other matters connected with this subject that require looking after. If the Government claims the Postal monopoly why, we ask, does it not look to collection of its dues. Why are Ex-

If our Legislative Assembly are to be called upon every year to make a grant to defray the expenses of the department, they should insist on having some information as to how the institution is carried on, and with what success. Regular quarterly or half-yearly reports should be made by the Postmaster, as to the working and requirements, as to the revenue and various other matters connected with the office, thus affording data for legislation and reform where needed. As it is now, the public are completely in the dark. One of the most important institutions connected with the Government seems to be carried on as though there were no public to account to, or who had a right to know anything whatever about it. But what else can we expect from the antiquated policy that has so long hung over this Colony like a huge nightmare? We trust ere long to see an awakening that will shake off the incubus, and hold forth better hopes

Looking over the Report of the Committee appointed by the City Council to define the duties of the Assessor, which was adopted by the Council, there are one or two matters which we think will require some alteration, as it will be found when the Assessor comes to act in accordance with his instructions. It is of the highest importance that the assessment should be properly made, not only as regards the interests of the city as a municipalty, but in justice to the rights of each individual liable to assessment. Such being the case, every facility should be afforded the Assessor to per form his duty properly. Ample time should be given to do all that is required. No one can doubt but that the period within which he must complete his assessment and prepare his Roll is entirely too short, more especially as the duties of the Assessor should always be

THE BRITISH COLONIST make his assessment and deliver his Roll to the Clerk before the tenth of January in each year. It is impossible for that to be properly done as any one may see at a glance. weeks at least ought to be allowed him for that purpose. Let us suppose with the Com-mittee that the work would be all done within the time allowed, would not the sum allowed the assessor be very large? Two hundred pounds for ten day's work-twenty pounds a day-would not be so bad after all! One would consider that payment by per centage would be about as fair a mode of remuneration as any. However, as we are merely at the entry of municipal career as yet, and do not very well know how we stand, a fixed salary for the first year might tion be better defined.

stated at between two and three thousand.

A Frenchman who arrived at the Bomaparte from Fort Kamloops, says that the Indians have been nearly exterminated at that place by small-pox; only sixteen have escaped out of a large settlement. Their bodies are strewing the ground in all directions.

Fine gold has been found in paying quantities on Hat River near McLean's. Mr. McLean exhibits a line specimen of gold-hearing quarts from Peace River.

Mr. Simmons, the miner who accidentally shot himself at Williams Creek, has quite recovered and is now in town. He was laid up twelve days. No House .- In consequence of a quorum net being present, the House of Assembly held no sitting yesterday.

Two men named Win. Carter and Charles McCarthy were charged by Geo. Foster, a publican, with fighting in his house. Mr. Foster wished the charge to be dismissed, but the magistrate said he would not sanction such a course. Loss of the Wild Duck .- In announcing the loss of the sloop Wild Dack, on the Spit at Port Angelos harbor some days since, we are satisfied from the facts that have come to our knowledge since, that we gave a wrong impression both as to the occurrence and the character of the locality. THE LOST PAPERS.-Intelligence from Williams Lake up to the 25th ult., shows that the missing papers of Commissioner Elwyn have not yet been found. "Big George" and some others had gone out on snow shoes to search for them, but it was considered extremely doubtful whether they would be recovered. The record books were not lost, having been in the hands of another party. The Commissioner is at present at Lillooet, but will go up again shortly.

SEATON LAKE HIGHWAY RORBERY .- M. Mouttet of Johnson street, who was shot between Lillooet and Seaton Lake, on Sunday week, came down on the Enterprise yes terday. His intended assassin, who gives the name of Marks, was arrested at the Fountain, 11 miles above Lillooet, whither he had sped with his ill-gotten gold. The bag, which contained about \$600, was not found upon him. He was brought down in irons to the jail at New Westminster by the steamer Col. Moody on Tuesday evening.

A considerable number of miners have started considerable number of miners have started to return by the Bentinck Arm, and may be expected to arrive here by the first boat, or possibly in canoes. Robert McLeod had come through to Fort Alexandria with his pack train. He expresses the firm belief that it will be the route next season.

A CHANGE OF TONE.—The Sacramento Union is one of the most prominent Union papers on the coast, and it has herotofore expressed the fullest confidence in Mr. Lincoln's management of the war, and bestowed upon the Administration unmixed praise. That confidence would seem now to be the following extract:

The outrageous mismanagement of the

istration. The people have furnished the nation with men and means amply sufficient to crush this rebellion, and all they ask of the Government is, that they shall be so employed as to accomplish that end. They are ployed as to accomplish that end. They are sorely grieved at the management which resulted in the comparative destruction of the splendid army of the Potomac, and the loss of several hundred millions of dollars, without accomplishing the end for which that mighty army was formed. To repeat that terrible expensive experiment in life, treasure and national reputation, would come near proving fatal to the life of the republic.

Another Invasion of Southern Rights.—We have from New Orleans a curious correspondence about negro babies. It seems that the State of Louisiana has formerly been in receipt of a very nice little revenue from the sale of all the negro children born of con-victs in the State Prison. Some stupid Yau-kee has taken it into his head that raising human beings for sale in this way is wrong, and so he writes to General Butler asking his opinion. CATHOLIC OPINION .- Nearly all of the Catholic Archbishops and Bishops who have re-cently returned from Rome embrace the occa-sion of their first sermon to their people to allude to the state of the country and the duty of its citizens. Archbishop Purcell, whose condjutor and probuble successor is a brother to Gen. Rosckrans, delivered a dis-course in the Cathedral at Cincinnati recently, IFA correspondent writing to the Sacra-mento Union, from Salt Lake City, October

15th, says that new and rich diggings have been discovered on the head waters of the Missouri river, and miners with small hand rockers are averaging from \$12 to \$15 per day, of scale and shot gold. The Bark Eureka, from Vancouver sland for Callao, was spoken on October

Steamboat Mismanagement Under the above head, the last Columbian gives the account appended. The difficulty complained of a rises from the non arrival the Caledonia. But she was sold on the 25th ult., and was brought down to Victoria by Capt. Frain to complete the transfer. Columbian says:

rived at a rancheric about four miles above the mouth the following morning, when making fast to the shore, the Captain went down in a boat to see whether the steamer were there. He returned soon, reporting that the Caledonia was at the mouth, and would be the Caledonia was at the mouth, and would be up in two hours to take the passengers off, and desired them to go on shore, as he wished to return to Douglas with the barge. The party being a little suspicious that all was not right, questioned him closely, and, finding that he prevariented, declined to go on shore until the arrival of the steamer. He told them they might remain on board, but if they did they would be carried back to Douglas, as he would leave for that place in a few minutes. Finding, however, that they were firm, he consented to remain till the the captain informed them that he would take them down to the mouth on condition that they would disembark there, and permit him to return to Douglas with the vessel. They evaded making a positive promise to that effect, stating that they would see when they got there. Shortly after their arrival at the mouth the steamer Col. Moody arrived. They applied to the captain, who said that he had no connection with the Caledoria, informing them that she was not at New Westminster, that there was no certainty about her being up, and advised them to proceed down on the barge.—
They returned on board, and asked the carrier of the barge than the barg westminster, which he positively refused to do, stating that the barge was unsafe for such a trip, and that he would not allow her to be taken down. He also warned them that if a man attempted to take her off he would put a man attempted to take her off he would put a bullet through him. The passengers, however, quietly but firally informed him that should no steamer arrive that night they would take the barge next morning and start for New West-minster. They at once took charge of the vessel, appointed Mr. E. F. Glover, one of the party to take the command, and set a watch on. Next morning, no steamer having arrived, they started for this place, where they arrived safe at 8½ o'clock, having made the trip in 11 hours. The gallant excaptain offered no 11 hours. The gallant ex-captain offered no further opposition, but yielded a sallen submission from the time they took possession of the craft. From leaving Douglas on Friday morning till they reached Langley on Monday afternoon, the passengers were without lood, save what little salmon they could obtain from the Indians at Harrison. Nor was there any sleeping accommodation either on the barge or on shore; so that during that time their sufferings were very considerable. It is not for us to indicate the guilty parties, as we understand the passengers have instituted proceedings for the purpose of obtaining legal redress. Mans .- The Puget Sound Herald of the

30th, talks thus lamentingly of a very grave offence. Never did editor draw it milder :-" A complaint was made to us, on Sunday REDS. "A complaint was made to us, on Sunday evening last, by a gentleman who had just returned from an overland trip to Columbia river, that bags of mail matter were strewn along the road from Olympia to Monticello, in the stables of the mul contractor. At one station he saw a bag for Coveland, W. T., which was there for a period of eight days, to his knowledge; how much longer it had been or would remain there, he knew not. At another station he saw another bag of matter, left in a stable perhas until it sprouts. Now ther is a stable perhaps until it sprouts. Now this is not right, and we hope the contractor will see to it that the service is honestly performed. We cannot believe that the contractor is aware of these things. It is probably chargeable alone to his employees, whom he should at once discover and dismiss from his service.

The proprietor of the Star and Garter Ho d, Government street, on the 1st November, will have ready for the public at large his celebrated Hot Spice Elder Wine. Also, for the reception of is guests, a magnificent Parlor will be ready at

Regardless of expense, the Saloon is fitted up in the neatest style. Having enjoyed the public confidence for the past four years, he hopes, by increasing facilities for supplying the wants of the public, still to enjoy their confidence. Superior accommodation for travelers. LEWIS DAVIES, Proprietor.

17 We understand the Agent of the Royal Mail Packet Company will be happy to afford an 58, 59 and 60 Bartholomew Close, Aldersgate street, information in his power to passengers by the Company's bonts, as to the mines of British Columbia, or other general local information, by applying at the office of the agency, at Macdonald Co.'s, Bankers, Yates street.

VICTORIANS should test the merits of Dr. HOSTETTER'S STOMACH BITTERS While it is highly palatable as a beverage, it is unequalled as a tonic and invigorator. In the pursuit of fortune at the mines many persons are exposed to the attacks of complaints of the digestive organs and of various kinds of fever. It is the very article that has so long been in demand at the mine Its daily use will restore the tone of a deranged stomach, impart fresh vitality to the digestive functions, and cheer the spirits. Yet the Bitters are the safest of all stimulants. Let the miner who is exposed to hot and dry, wet and cold, be certain to obtain a supply of the genuine Hostetter's Bitters, and he will find it a certain safeguard to health.

HAD LEGS, BAD BREASTS, AND ULCERS.—The treatment erroneously pursued in these cases, is to drive the disease inwards, thus making matters far worse than by allowing it to take its natural course, as it only breaks out elsewhere with an aspect ten times more dreadful than before. Holloway's celebrated Ointment and Pills, however, act in conjunction, the one internally and the other externally, and by the conjunction of these two inestimable specifies, all descriptions of external diseases are speedily and rapidly removed, even when all other means fail.

Throat Affections.—From Rev. E. Rowley, A. M., President Athens College, Athens, Tenn.—"I have found great benefit from the use of Brown's Bronchial Troches, before and after preaching, as they prevent hoarseness, to which I am very subject. I think from their past effect they will be of permanent advantage to me. Several elergymen of my acquaintance to whom I have given the Troches have been benefitted by them."

us respecting the conduct of steamboat men on the river between this place and Douglas. While these men have an undoubted right to manage their own affairs as they think proper, and we have no desire to interfere so long as the public rights are not infringed upon, still we think such conduct as we are about to relate comes within the legitimate cognizance of the civil authorities: On Friday morning has between 40 and 50 miters purshased tickets from the opposition agent at Douglas, which were to carry them through to Victoria, and about 9 o'clock shipped on board the Barge "Lady of the Lake," with the understanding that she would connect with the steamer Caledonia at the mouth of Harrison River. Robert A. Travers, mate of the Caledonia, was in charge of the barge. They arrived at a rancheric about four miles above the mouth the following morning.

Notice to the Public.

SAINSEVAIN'S WINE HITTERS OR
California Vernouth.—These litters are obtain
ing a wide-spread celebrity in all parts of the State.
It is sufficient evidence of their great merit to observe
the large quantities shipped by our principal Wine
Merchants to every part of the country.
Sainsevain, however, like all other manufacturers
of new and valuable articles, has to contend with
unscrupulous parties, who are introducing a spurious
mixture purporting to be his Wine litters, which
noxious compounds are put up in the same style of
bottles, labels, etc., so as to pass for the Sainsevain
brand. We call attention to this fact so that our
chey ask for Sainsevain's litters, see that they get
them. As pure Wine is destined to drive from use
all alcoholic decoctions, so these litters will soon
take the place of the adulterated preparations which
now flood our market. Those desiring a pure and
agreeable tonic should try Sainsevain's Wine litters
or California Vermouth.
